Inter University West Zone Competition Report

Event Name: 37th inter university west zone competition 'Shataspandhan'

Date: 26th Jan 2024

Name: Atharva Dilip Bhandvalkar

Class: TE-AI&DS

I am delighted to share my experience and insights gained from the 37th Inter University West Zone Mime Competition organized by the Association of Indian Universities (AIU), where I secured the second position and earned the opportunity to represent Savitribai Phule Pune University at the nationals.

Experience:

Participating in the inter-university competition was a transformative experience that challenged both my creative abilities and stage presence. The competition provided a platform to showcase our mime skills and connect with fellow performers from diverse backgrounds. We focused on refining our gestures, expressions, and synchronization to convey our message effectively. The process demanded collaborative effort, patience, and a deep understanding of each team member's strengths, contributing to a cohesive and impactful performance.

Learnings:

Mime is a unique art form that relies on non-verbal communication. The competition taught me the power of expressive gestures and facial expressions in conveying emotions and narratives without words. The collaborative nature of mime emphasizes the importance of teamwork. Each member's contribution is crucial to the overall success of the act. Learning to synchronize movements and emotions with the team was a valuable lesson.

Quick thinking and on-the-spot adjustments became essential skills during unforeseen situations, enhancing our overall stage presence.

Overall, it was a great learning experience to address such a situation and come out on top. And it would have barely been possible without my college and teachers' guidance and consistent support in encouraging me for this opportunity. It was a dream experience.
