Brief Report:

On September 27th, the Computer Engineering Students Association (CESA) organized a project exhibition for all students of the Computer Engineering Department. The exhibition was inaugurated by the Honorable Principal, Dr R. S. Bichakar, along with the Register, Dr. R. K. Shastri, Dean Academics Dr. Sachin Bhosale and the Head of the Computer Engineering Department, Dr. G. J. Chhajed. Total 15-20 teams participated and showcased their projects during this event. The Project Exhibition Coordinator Mrs. Swapanli Limkar and CESA coordinator Mrs. More Monali has coordinated complete event.

Miss Hrushika Khose, Technical Lead at CESA, highlighted the importance of "Project-Based Learning," where she emphasized how, apart from acquiring knowledge through books, it is also crucial to implement that knowledge for practical use. She mentioned that PBL is an effective method that helps students develop critical thinking,

communication, and collaborative skills. It also enables students to gain a deeper understanding of concepts and retain knowledge better.

The Honorable Principal evaluated each team's project and provided valuable insights, accompanied by the Head of the Computer Department.

Teachers and students from other departments were invited to view the projects. Many students visited the exhibition and had a great experience. CESA received positive feedback from approximately 50 students.

Overall, the exhibition concluded on a positive note, with encouraging feedback from students and teachers alike.
