

The objectives of the summit are

- To establish continuous interaction between industries and VPKBIET, Baramati
- To know the advantages of industrial institute interaction for institute (the students in particular) as well as industry.
- To discuss various activities that can be planned under III activities.
- To sign MoU between VKBIET and your esteemed industry.

Summit will be open to discuss above-mentioned points and other relative objectives. It's honor for us to become a bridge between Engineering Regional business Baramati and students for their skill development and active participation.

Please be our guest
