Following points were discussed during the meeting.

1. Consideration of UGC / AICTE / University norms and guidelines for the courses.
2. Design of rubrics for community engineering/Project subject.
3. Open electives should contain the state of art technology which are not covered in regular curriculum.
4. A Multidisciplinary Minor course should be designed by considering all departments. Need to be careful while selecting any course as MDM.
5. Rearrangement of sequence of UNITS for some subjects.
6. Renaming of titles of UNITS for some subjects.
7. Change in the subject names. E.g. Java Programming to Object Oriented Programming
8. More practical and tutorials in OPEN Electives instead of theory.
