Following points were discussed during the meeting.

1. Review of Previous Meeting

The minutes of the previous meeting were reviewed and discussed among the members.

2. Curriculum Pattern Implementation

The implementation timeline of the revised curriculum pattern was discussed Final Year: 2023 Pattern, Third Year: 2024 Pattern, First Year and Second Year: 2025 Pattern

3. Evaluation of Term Work During Internship Semester

A query was raised regarding the evaluation of term work for B.Tech students, as they are required to undergo internships for the entire semester. The panel discussed possible evaluation mechanisms considering the internship-based learning outcomes.

4. Program Elective Course Structure

Members discussed the structure of Program Electives and suggested that elective courses should address emerging technological domains.

Suggestions included:

- Inclusion of Data Science related courses in the curriculum.

It was also suggested that Digital Forensics and Blockchain Technology should be offered as separate elective subjects.

5. Honors Program

The Honors basket for students was discussed.

suggestions included:

- Honors in Data Science is already available.
- Additional subjects may be included in the Honors basket, such as: Security in Cloud Computing, Software Design for Networks

6. PG Course Structure The PG course structure was discussed with the panel members, and their suggestions were noted. It was recommended to increase the number of elective subjects in the PG elective basket to provide broader specialization opportunities.

A suggestion was also received to include Image Processing as a subject in the basket

7. MOOC Courses

Members suggested that relevant MOOC courses should be incorporated into the PG curriculum to enhance students' exposure to emerging technologies and global learning resources.

8. MDM Guidelines

As per the Government Resolution (GR), it was clarified that MDM subjects should not be from the core engineering domain. Members suggested including subjects such as: Foreign Languages, Applied Sciences. These may be considered under MDM or elective categories.

9. First Year Computer Workshop Structure and Naming

Members discussed the renaming of the workshop to ensure that the title reflects departmental relevance.

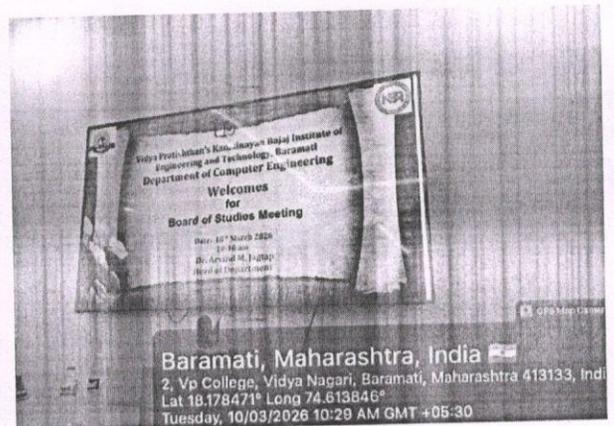

It was suggested that the workshop should include the following practical activities:

Computer hardware assembly, Basics of assembly language, Basic concepts of memory partitioning, Software installation, Firmware concepts, Operating System installation and Other system-level configuration activities

10. First Year Computer Fundamentals of data structures Course:

In the 2025 pattern, the course **Fundamentals of Data Structures** is included in the **First Year** syllabus, and the course **Object Oriented Programming** is included in the **Second Year** syllabus. From the next academic year, **these two courses will be swapped**. Therefore, Object Oriented Programming will be taught in the First Year, and Fundamentals of Data Structures will be taught in the Second Year.
