Brief Report:

Intellectual Property Rights (IPRs) are a set of exclusive rights protected by the law which are accorded to creators or persons over their creations for a certain time of period. It has been observed that there is an inadequate knowledge about the rights of individuals to protect their ideas and innovations and low awareness about the procedures involved in obtaining an IPR among the students. So to create awareness about the Intellectual Property Rights (IPR) among the students, Department of Mechanical Engineering has conducted two day short term training on “Importance of IPR in Research and Entrepreneurship” on 27th-28th February 2020. The program was attended by nearly 60 to 65 S.E students from Mechanical and Civil Engineering Department, along with faculty members.

The program was inaugurated by Head of Department, Dr. P. R. Chitragar in seminar hall of Mechanical Engineering Department. He has narrated the objectives of the workshop in front of the gathering. Dean R & D, Dr. S. M. Bhosle addressed students regarding importance of IPR in research. Event speaker, Ms. Kalyani Ahir from Pixelstat e-solution Development Pvt. Ltd, Pune delivered various aspects of IPR including importance of IPRs and their protection, Patenting procedures and patent informatics, patent searches, role of innovation and invention in the academia-industry collaborations, trademark and copyright protection and issues of do's and don'ts for a researcher in the context of publishing and patenting.

Students has taken immense interest in understanding the IPR concepts and as per feedback received, we feel that, the workshop was successful in spreading the awareness related to IPR among students and faculty members.

At last, we thank our Honorable Principal Dr. R. S. Bichkar, for his support and guidance to organize such type of awareness programs in the institute. We also thank our head of department, teaching and non teaching staff and students for their participation in this program.
