Chandigarh University makes national record in the field of research, files 500 patents in 7 years

Chandigarh University makes national record in the field of Research. Files 500 patents in just 7 years.

The economic status of a nation depends upon the efforts putting by the respective countries in the field of research and innovation.

Developed nations such as US, Japan, Germany are amongst the top nations which have major share in global innovation index, whereas countries like India lag behind and are dependent on such countries for new age technologies.

As per the data available from world intellectual property organization (WIPO) with more than 1.5 million patents filed, China leads the list of countries who has filed the maximum number of patents in 2019 which is followed by USA, with 6.6 million. India has been ranked 7th in this list with more than 50,000 patents being filed in 2019 with just 2.3% increase over the last year.

The main reason attributed to the current situation is that India with 0.46% contribution of its GDP to the global economy ranks 128th amongst the nations which contribute higher percentage of their GDP towards research and innovation.

Working with a mission to make India a self-reliant nation in developing new technologies and acclaimed top position in global innovation index, Chandigarh University Gharuan has emerged as the leading university of the country which has filed maximum number of patents in 2019.

According to the latest data released by government of India's Office Controller General of patent designs and trademarks for the year 2019-19, Chandigarh University, Gharuan has emerged as the leading university with highest number of 500 patents.

CUCET PHASE-2 (NATIONAL ENTRANCE TEST)

- After receiving tremendous response with more than 1 lakh application in the first phase of CUCET, Chandigarh University is now coming up with the 2nd phase of CUCET.
- CUCET is the common entrance test organized by Chandigarh University for UG/PG courses which offers upto 100% scholarship.
- The last date to register for the test is 20th April, 2020.
- For more information log on to <http://cucet.cuhd.in> or call 9800212400.

pany Tata consultancy services (TCS).

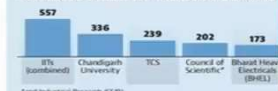

The fourth position in this list is held by Council of Scientific and Industrial Research (CSIR) with 202 patents which is followed by PSI company Bharat Heavy Electricals Limited (BHEL). It got fifth rank by filing 152 patents.

While giving details about the patents filed by university students and faculty, Dr. B. S. Dhillon,

Engineering with 80 patents and 44 patents by the Department of Computer Science.

Understanding its Institutional Social Responsibility, students and faculty of Bio-Tech, Biotechnology and Pharmacy at Chandigarh University are contributing in the field of research and have filed more than 25 patents in the field of Health Sciences and Medicine which is a great achievement of the

reality so that our country no longer has to be dependent on other nations like USA, Japan for the transfer of technology.

Due to robust work undertaken by Core Research Groups, the number of patents filed by Chandigarh University has increased from 306 to 500 in 2019.

The campus of Chandigarh University boasts more than 30 ultra modern R&D Labs and Innovation Centers established by top notch companies such as Microsoft, Hewlett Packard, SAP Labs, IBM, Honda, Hyundai, Volvo-Eicher, Virtusa, HIR Academy, The Taj Academy, Piramal Foundation and others where students are given hands-on practical exposure on the new age technologies under the guidance of Industry Experts.
