A guest lecture on **Workshop on Intellectual Property Rights (IPR's) and IP Management for Start-up** was conducted on 4th April 2025 through Online Mode. The session aimed to create awareness among students and faculty members about the significance of IPR in innovation, research, and business.

The session was led by **Miss. Kalyani Ahir Founder and CEO Synnollect Innovations Pune** a renowned expert in IPR. The speaker provided a comprehensive understanding of patents, trademarks, copyrights, and trade secrets, emphasizing their role in protecting intellectual property.

The session started with introduction and welcome address by Mr. Rohit S. Tarade

Key Highlights of the Lecture:

- Introduction to IPR: Explanation of different types of intellectual property and their legal significance.
- Patent Filing Process: Steps involved in obtaining a patent and the importance of patent protection.
- Copyrights & Trademarks: Differences between copyrights, trademarks, and their applications in various industries.
- IPR in Research & Startups: How researchers and entrepreneurs can leverage IPR for commercialization.
- Case Studies: Real-world examples of patent disputes and successful IP strategies.

Interactive Session & Q&A:

The session was highly interactive, with students and faculty members actively participating in discussions. The Q&A session addressed queries on patent filing, legal procedures, and the role of IPR in startups and academia.

Conclusion:

The guest lecture was insightful and well-received by the attendees. It provided valuable knowledge on IP protection strategies, innovation management, and

legal aspects of IPR. The event concluded with a vote of thanks by Dr. Hafiz M. Shaikh, expressing gratitude to the speaker for sharing their expertise.

Acknowledgement:

We the IIC team would like to sincerely thank you Dr. S. B. Lande, Principal, VPKBIET for granting us permission to organize the guest lecture. His support and encouragement played a vital role in the successful execution of the session. The lecture provided valuable insights to the students and was greatly appreciated by all the attendees. We are grateful to Principal sir for his continued guidance and support in enriching the academic experience of our students.

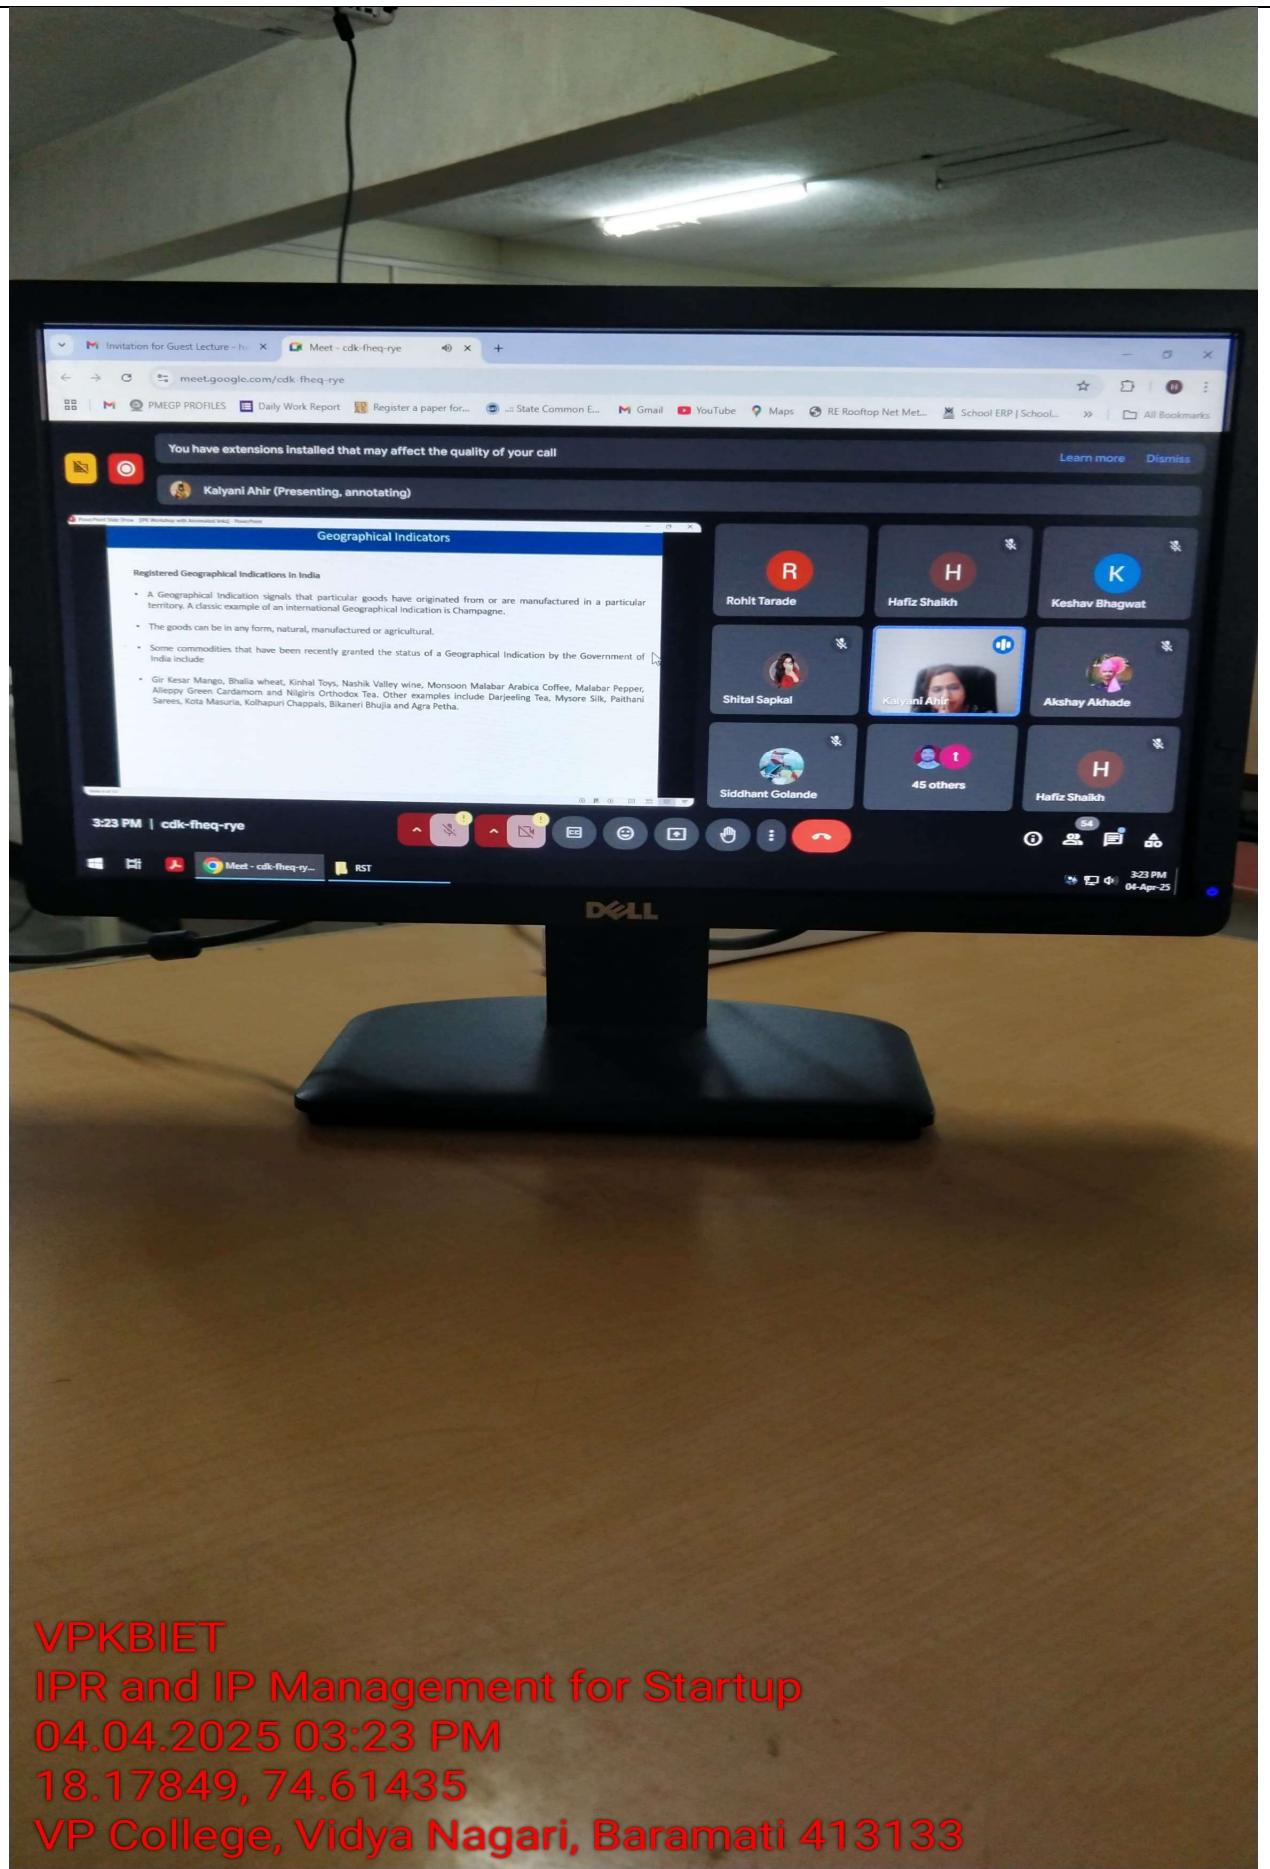

The image shows two screenshots of a Google Meet session. The top screenshot displays a presentation slide titled 'Types of Intellectual Property Assets' with a central 'Innovations' node connected to various asset types: Patents, Copyrights, Trademarks, Trade Secrets, Other IPR, Domain Names, Trade Secrets, Technology Know How, and Design. The bottom screenshot shows a slide titled 'Why Patent?' listing reasons such as Nicolas Tesla having 300 patents and Thomas Alva Edison having 2332 patents, and the protection of innovations through exclusive rights. Both screenshots show a participant list on the right and a control bar at the bottom.

Top Screenshot (Presentation on Types of Intellectual Property Assets):

- Types of IP Assets
 - Patents
 - Industrial Design
 - Copyrights
 - Trademarks
 - Trade Secrets
 - Other IPR

Bottom Screenshot (Presentation on Why Patent?):

- Nicolas Tesla has 300 patents and Thomas Alva Edison has 2332 patents.
- Edison was a businessman, protected his innovations.
- Exclusive rights.
- Higher returns on investments.
- Opportunity to license or sell the invention.
